COMMERCE MANAGER

Commerce Manager provides a way for departments across campus to sell products and services online through a single campus commerce system. Your institution will benefit from centralized commerce and standard policies and payment processes across campus—streamlining the purchasing process and making it easy to reconcile accounts when needed.

Whether your English Department, campus bookstore or foundation are fundraising, selling promotional items or conducting business on a day-to-day basis, reconciling and reporting all transactions and financial activities is simple. Reporting is centralized—bringing all transactions through one reporting channel makes it easy for you to overview revenue, see activity on accounts and monitor payment vehicles.

Security is of the utmost importance in large campuses where multiple transactions occur on a daily basis. Now you can ensure that all payment information entrusted to you by students and faculty is stored and saved the safest way possible. All *QuikPAY* services offer the highest certified level of PCI compliance (Level 1).

EVENTS MANAGEMENT

Events Management allows your colleagues to create and manage the registration for conference and events hosted by your institution—while NBS manages the payment process. Payments are accepted online according to department-directed policies and centralized to make reviewing, reporting and updating simple.
