

AUTOMATE YOUR CAMPUS

with Automated Billing and Payment Processing.

MANUAL BILLING AND PAYMENT PROCESSES ARE TIME-CONSUMING FOR YOUR STAFF AND STUDENTS. WITH NELNET BUSINESS SOLUTIONS *QUIKPAY*® AUTOMATED BILLING AND PAYMENT PROCESSING TOOLS, YOUR CAMPUS CAN STREAMLINE AND AUTOMATE TRANSACTIONS, REDUCE MAILING AND MANPOWER COSTS, IMPROVE CASH FLOW AND OFFER YOUR STUDENTS A CONVENIENT, SIMPLE WAY TO PAY FOR SCHOOL.

PATH TO PAPERLESS™ BILLING

Path to Paperless billing helps you dramatically reduce costs associated with postage and manpower, while keeping you in control of the payment process and maximizing customer satisfaction. Students and other authorized payers receive event-triggered e-mails notifying them when new bills are available and have 24-hour access to statements and payment histories online.

Based on your institution's billing policy, you determine the process for automated billing and the options available to your borrowers, including the default bill type and the length of the trial period. Students and other authorized payers can determine how to view their bills and statements and can print or forward their bill at any time.

CREDIT CARD WITH OPTIONAL SERVICE CHARGE PROGRAM

Processing credit card payments can be costly if your institution isn't using the right resources. With the Optional Service Charge Program, you can offer students no-fee ACH transactions while also giving them the choice to pay via credit card. All credit card fees are processed through Nelnet Business Solutions as your third-party vendor, and 100% of the payment is settled to your account by real-time or batch posting—it's your decision. And with our certified Level 1 PCI compliance, security is at its highest.

FULL-SERVICE ACH PAYMENTS

ACH transactions are mainstream payment options that offer a great convenience for you and your students. By relying on Nelnet Business Solutions to manage your ACH payments, you can feel confident that all data transmissions are encrypted and that all transactions adhere to NACHA's ever-changing regulations. ACH processing greatly simplifies reconciliation—saving you time and money.
